

Health and Safety policy

Enviroflo Ltd recognises its responsibilities laid down within the statutory requirements of the Health and Safety at Work Act and other relevant Acts, Directives and Regulations, for ensuring as far as is reasonably practicable, the health, safety and welfare of all its employees, visitors and contractors.

Enviroflo attaches the greatest importance to health and safety considering this to be a management responsibility ranking equally with other management functions within the organisation.

It is the policy of Enviroflo to take all reasonable practicable precautions for the prevention of accidents and dangerous occurrences and for the creation of a workplace, which safeguards the health & safety of all persons whenever on Enviroflo premises or on site. To this end Enviroflo will allocate the necessary resources and enlist the active support of all employees and contractors, upon whom duties are also imposed by the Health & Safety at Work Act.

Enviroflo regards the standards set by the various statutory provisions as the minimum standard, which must be achieved, and will endeavour to improve upon these standards where reasonably practicable.

This policy and the organisation, arrangements and safety rules, which form part of it will be reviewed regularly and modified and updated as necessary.
